

# 3D Modeling

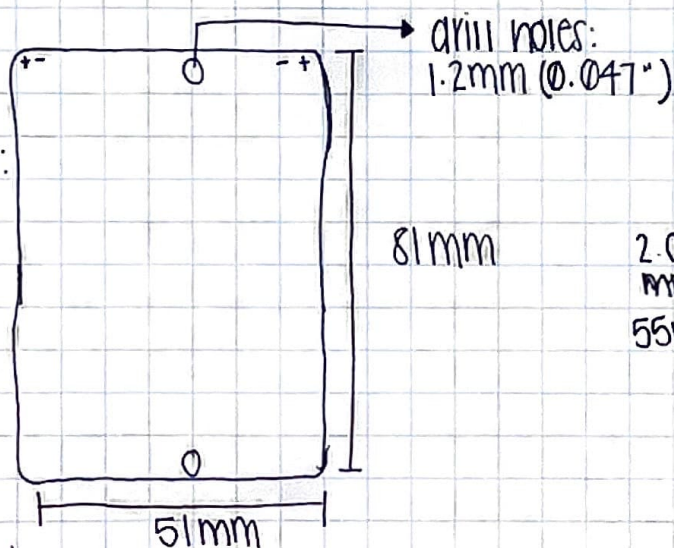

9

→ May 30, 2024

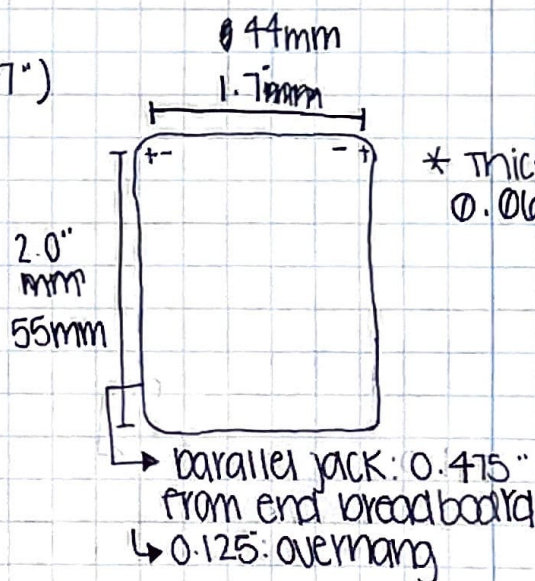

• LORA sender

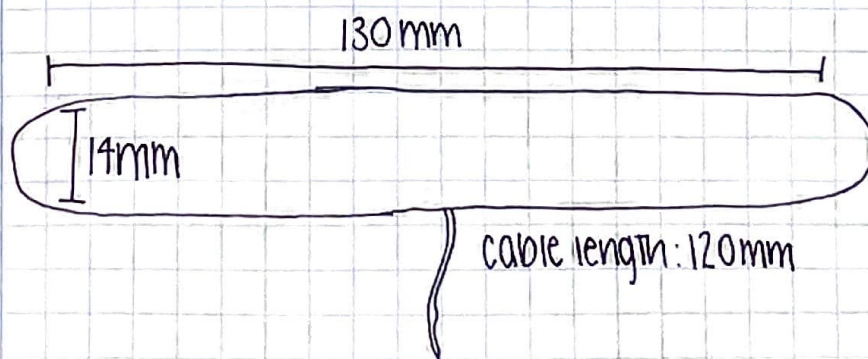

\* Thickness: 0.063"

→ end of LORA to end of board: 8 mm

→ parallel jack: 0.475" from end breadboard  
→ 0.125" overhang

- June 6, 2024: Currently printing new design. Current design is sort of a "flat lay" type set up. However, thinking about portability, a "box" type shape might be better.
